CREATIVE SPACE SOLUTIONS

# Modern Majestic

Modern dark cabinets, polished counter tops and lots of incredible top-of-the-line appliances give this kitchen the shine it deserves.

## **FUNCTIONAL**

Each design has a purpose.

## **FINESSE**

New age countertops.

## **MINIMALIST**

Minimal design for minimalist space.

## **CLEAN LINES**

Defined lines between workspace and function.

# Traditional Style

A modern kitchen with white cabinetry, a dining table, and a built-in shelf. The kitchen features white upper and lower cabinets with a mix of solid and lattice-front doors. A built-in wooden shelf is integrated into the cabinetry on the left, displaying a small framed picture, a vase of purple flowers, and a set of white teacups. In the foreground, a white round dining table is set with plates, bowls, and a magazine, surrounded by white chairs with blue upholstered seats. The background shows a countertop with a sink, a stove, and a built-in oven. The overall aesthetic is clean, bright, and traditional.

**Practical yet stylish.**

## **TRADITIONAL**

Colored to perfection with warm, earthy colors reminiscent of our grandmother's kitchens.

## **STORAGE**

Large wall cabinets, numerous island shelves, specified cavities to house our favorite kitchen appliances and accessories.

## **TWISTED**

New age design elements to out-shine tradition in a dreamy aesthetic way.

## **NATURAL**

Perfect natural finishes to enhance your dream kitchen.

# Contemporary Color

**Bring personality to your space.**

**SIMPLE**

Frameless décor and shelving to enhance contrasting color.

**UNITY**

Matching finishes so focus can remain on bright color.

**FUNCTIONAL FINISH**

Aesthetically pleasing but functional too, with our matt, glossy and modern finishes.

**THINK LIGHT**

Elevate kitchen design as you play with color and textures.

# Countertops

Choosing a countertop can be overwhelming, thankfully for you, we've got experience in this!

## Granite

You love the unmatched natural beauty.

## Quartz

You want a high-class look without the high-maintenance. Great if you have a high traffic kitchen or young children and want a surface that is less susceptible to staining and marking

## Marble

You want a classic luxury look in a low traffic kitchen

## Corian

The lack of visible joints, Corian counter tops are super popular for their looks, easy maintenance and stain resistance. No other material works as seamless!

## Porcelain

Unlike other materials, porcelain is extremely durable, scratch resistant, chip resistant, heat resistant, and UV-ray resistant – that's a lot of resistance!

# Shelving

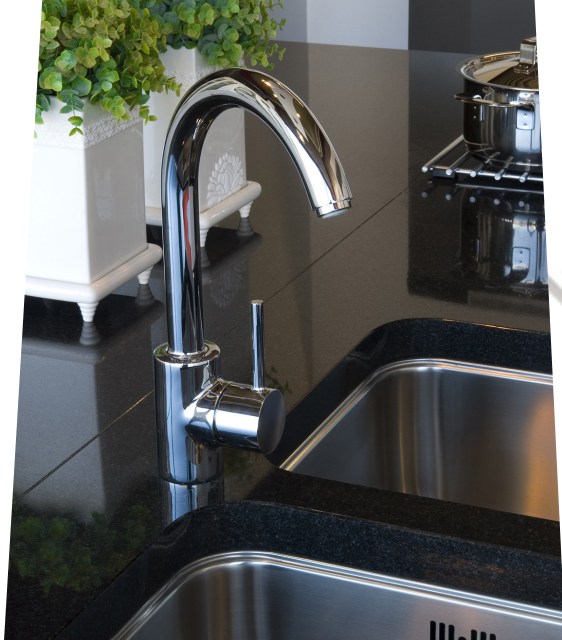

Choosing the best shelf for your home can be daunting when you consider all the choices available.

- Are They for Style or Storage Only?
- Are They Convenient and Useful?

Do you need different level shelves or keep it simple with one long same level shelf, the options are endless! Talk to us about open shelving, flying shelves and canopies!

Also don't forget about strip / spot lights to illuminate your shelves for efficient lighting!

# Sinks & Mixers

## SINKS

When designing your sink, look at function over aesthetic as practicability should be priority over form.

## STYLE

Large, single-bowl designs are convenient for washing oversize cookware, while dual-bowl sinks allow for quick wash-ups and offer multi-tasking functionality for the home chef.

## DURABILITY

Stainless steel remains a popular choice among homeowners. Stainless steel sinks offer many benefits including resistance to chipping, cracking or peeling, and they also help reduce noise from dishes and vibrations.

## MULTI-TASKING

The sink is a central element of this busy room, making the most of the space at hand is important no matter the design style.

# Handles

## HANDLES

Opening kitchen cabinets can often be a design step overlooked. The options for handles or even cabinets without handles are endless!

## STYLE

Your style will dictate your ultimate choice. Fans of contemporary interiors will love sleek designs, with clean lines and sharp detailing.

## MATERIAL

The material you select will have an impact on the overall look and feel of your space. Choose from metal or wood, antique or brushed or no handles at all!

## ACCESSIBILITY

Some styles are much trickier to use than others, particularly if you or your family members have difficulty gripping. Avoid small knobs, fiddly detailing and small hand gaps if this is a concern.

# CABINET & COLOR

A vast array of finishes and textures to suit all your needs and desires built to perfection

## Kitchen cabinet colors you choose can either enhance or diminish the look of your kitchen.

Whether your kitchen style is modern, traditional or something in between, there are some classic paint colors for kitchen cabinets that will likely work great. Black can be a great choice, particularly if you're looking to create a contrast with a primarily light-colored design. Similarly, grays and dark browns for kitchen cabinet paint colors can help create visual contrast with light-colored kitchen designs.

# Cabinet Style

It's easy to lose your way when deciding on cabinet style, the options are many and when trying to match the space you're designing, it can get overwhelming. At EPICA, we focus on details like this that might overwhelm you.

With an array of modern, semi-modern, classic or glass cabinet styles, with metal or wood frames, we ensure your kitchen aesthetic seamlessly flows between cabinets, countertops and finishes.

# ISLANDS

Great for food preparation, eating and storage, this piece of furniture transforms the way you enjoy the busiest space in your home.

A good kitchen island can even become a hub of activity. For this reason, consider a cooking facility, sink, bar counter, low level counter, or storage facility (cabinet, drawers, open shelves).

# STORAGE

When planning a new kitchen, choosing the right storage solutions for you is essential to ensuring your kitchen is perfect for your lifestyle.

Your first step to planning storage is to start by breaking the space down in to different zones for different activities- prepping, cooking, washing, dining, relaxing and even working.

Think of the following when making your decisions:

- Tall Units (Wall / Base)
- Pantry space
- Larders & Pull Outs
- Corner Storage, Bottle Racks
- Drawer Inserts, Pull Out Baskets
- Rubbish Disposal & Recycling

# Built In Appliances

Your kitchen appliances in your home make up the one of the largest investments for your pocket, as well as your time, which equates to functionality for your lifestyle in the kitchen.

EPICA focuses on a variety of built in appliances such as dishwashers, microwaves, ovens, coffee machines, washing machines, hobs, hoods, fridges and freezers.

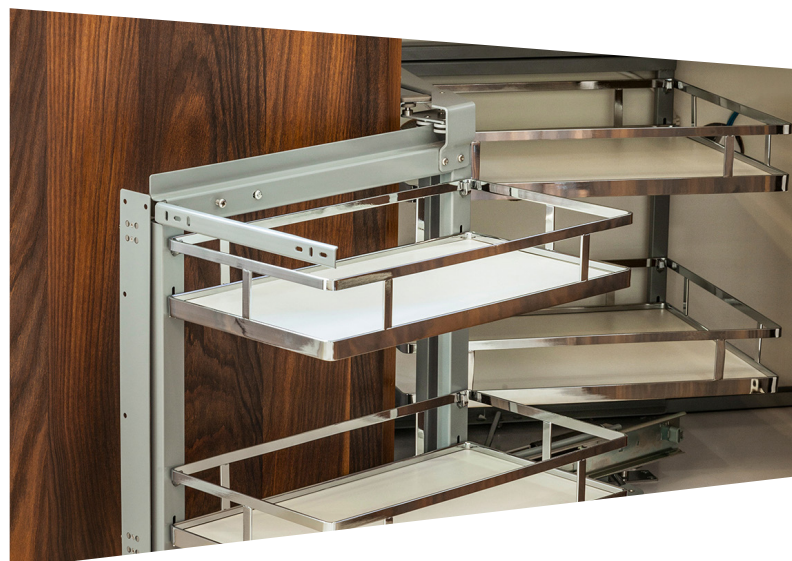

# Kitchen Accessories

Once the main design decisions have been made for your kitchen, namely the cabinetry and worktop, the next thing to address is all the accessories. Take this opportunity to add some character.

Think of accessories as decorations on a cake. Large accessories should be placed first and sparingly, with medium- and small-sized accessories filling in and adding balance where needed. Think lazy susans, magic corners, tall pull out baskets, bottle and detergent racks, wastebin pull outs and cutlery trays.

# Kitchen Seating

You've made countless decisions about your kitchen, and everything is almost done. But don't forget an oft-overlooked aspect of your kitchen: the seating!

Styles and options for kitchen seating include:

- Bar counter
- Dining Tables
- Benches

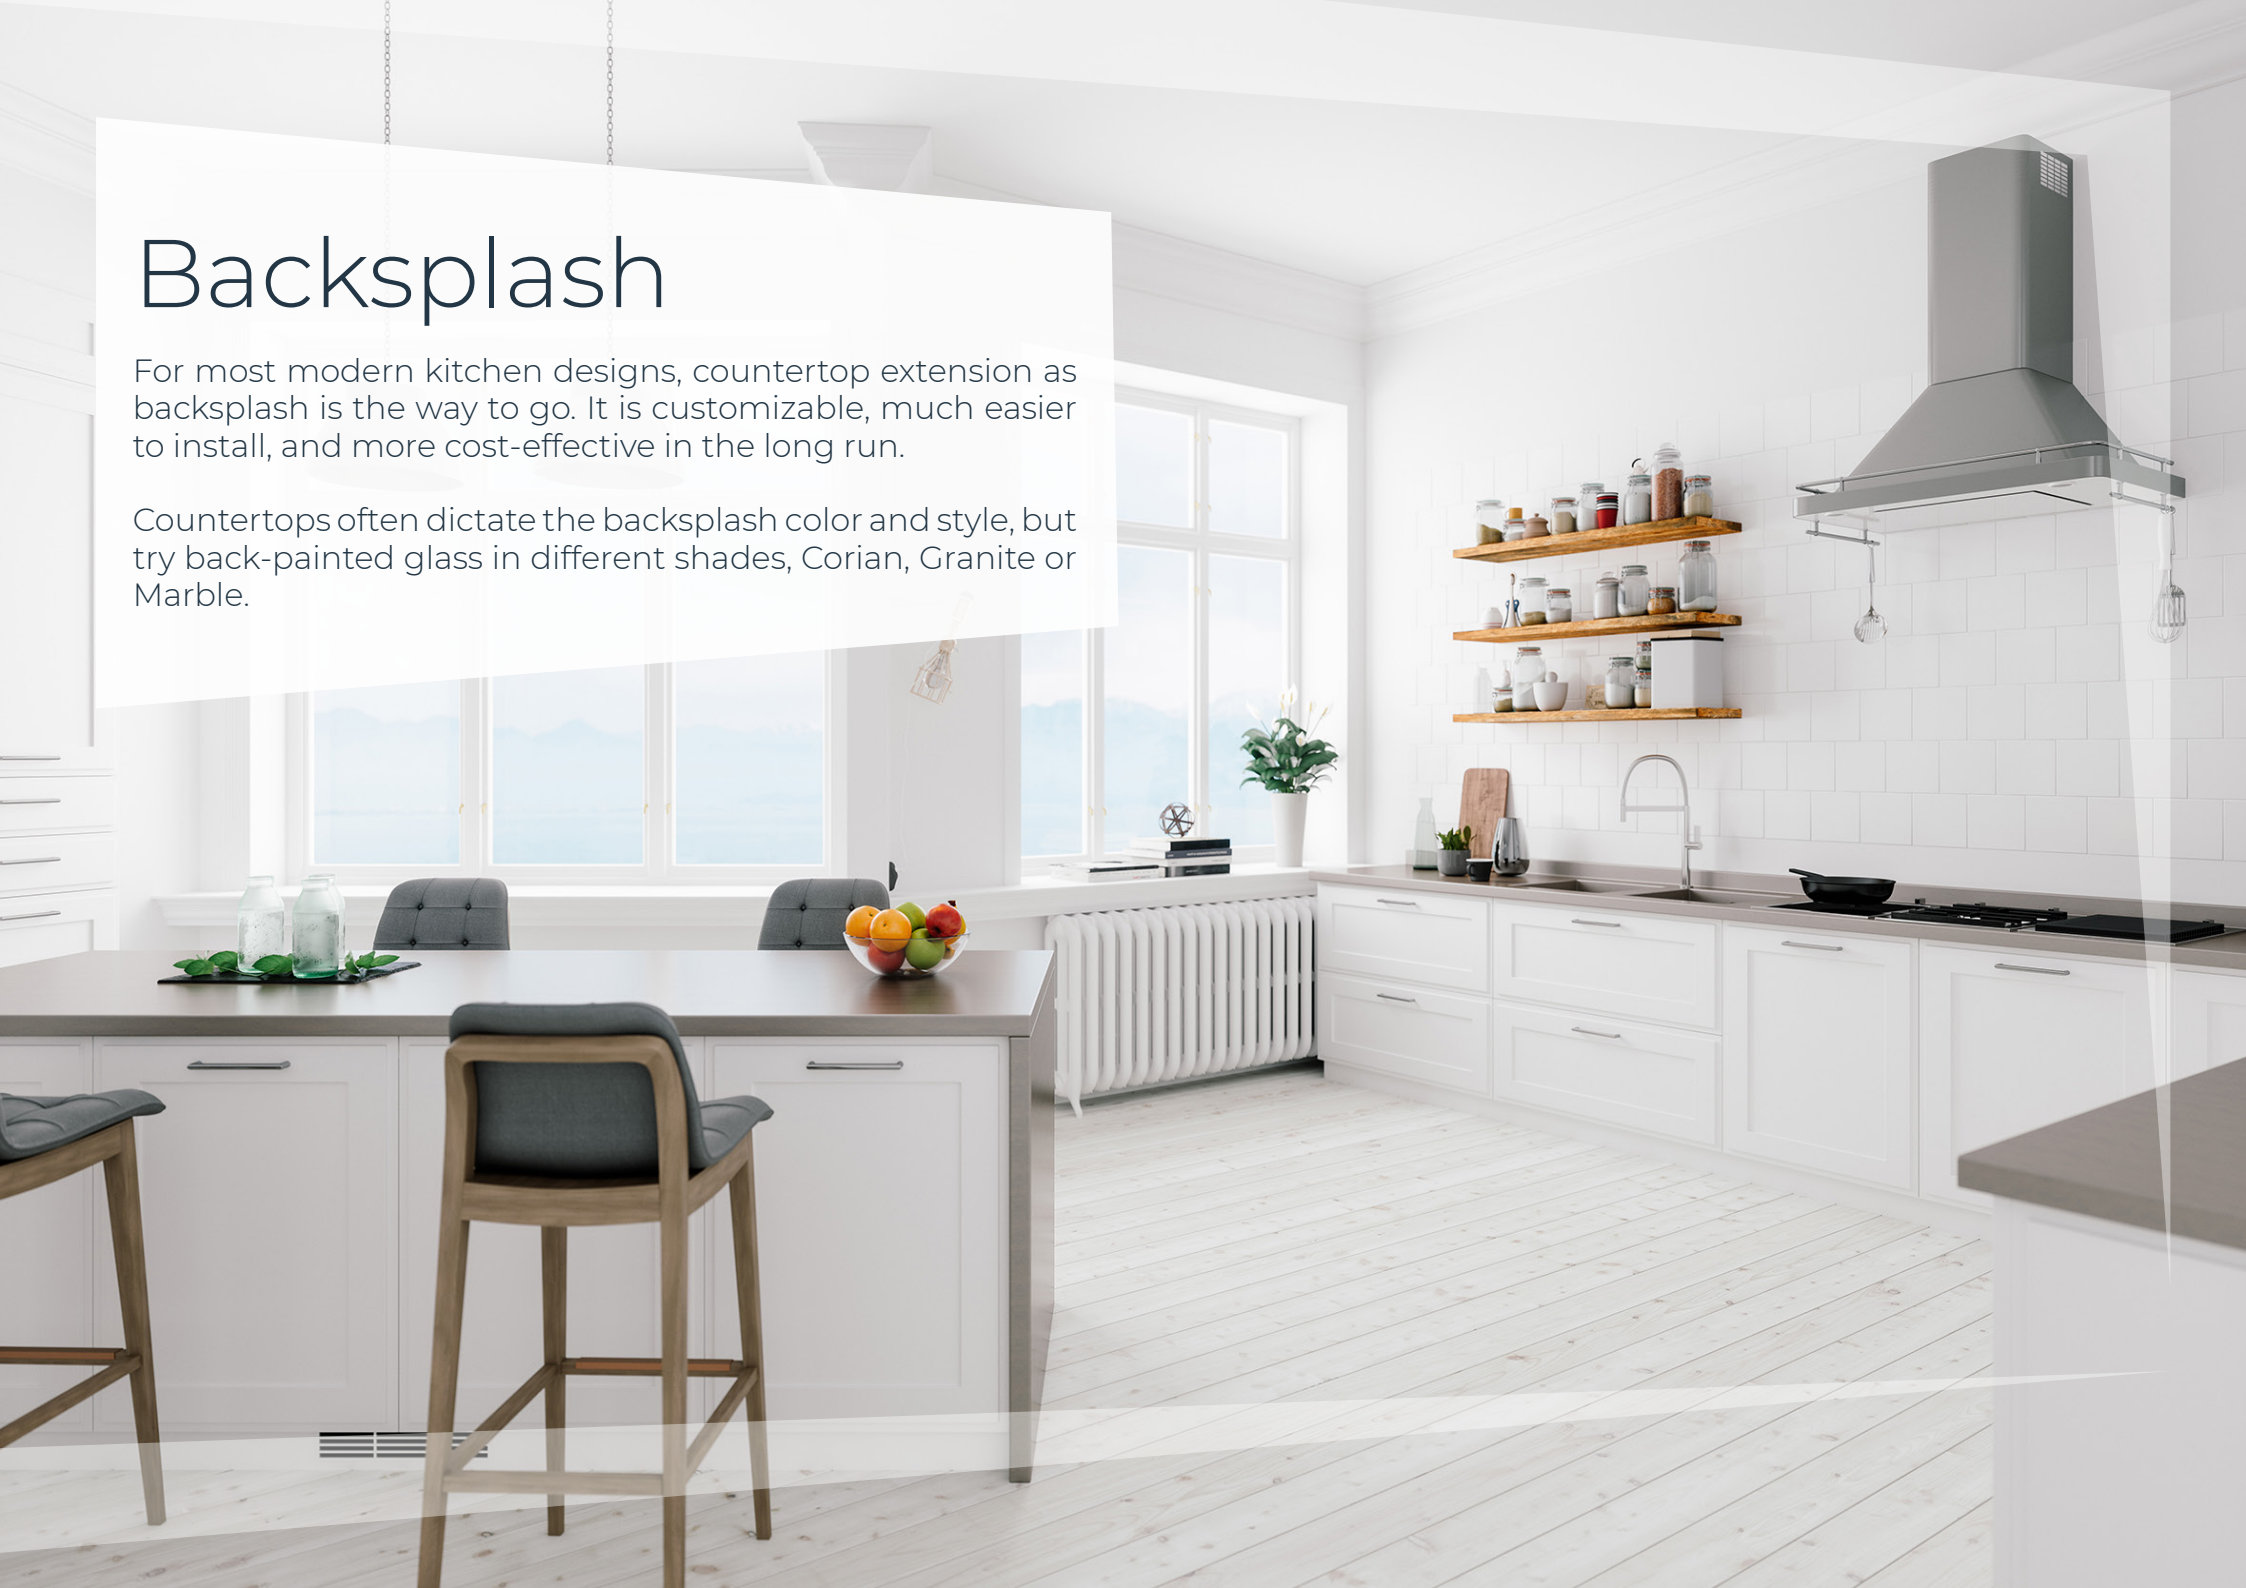

# Lighting

Of all the rooms in the house, the kitchen needs to have the most flexible lighting scheme to reflect the wide range of functions it must fulfill.

# Backsplash

For most modern kitchen designs, countertop extension as backsplash is the way to go. It is customizable, much easier to install, and more cost-effective in the long run.

Countertops often dictate the backsplash color and style, but try back-painted glass in different shades, Corian, Granite or Marble.

# Frying / Aluminium Kitchens

For kitchens that are used every day, we have a variety of design options available. Keeping in mind durability and longevity of kitchen surface life, our design artisans ensure that you get full use out of your kitchen without compromising on design, detailing and style.

We use special premium materials that are heat proof, durable and can handle daily use. Also we integrate heavy duty freestanding appliances into the design matching to your needs and to make your kitchen function without strain.
